

The digital road network has been further expanded with this new version. Digital road maps guide you quickly and reliably to your destination. At the same time, you are informed about hotels, restaurants, patrol stations and interesting sights.

Parts of Bulgaria, Croatia, Poland, Romania, Russia, Slovenia and Hungary as well as the major road network of other Eastern European countries (latest available data)..

- Changing CDs at the border now is a thing of the past
- Depending on the preset system software, the following output languages are supported, from which you can freely choose: German, English, French, Italian, Dutch and Spanish.
- Traffic Jam Alerter (TMC function) in the following countries: Germany, Austria, Switzerland, France, Great Britain, Italy, Netherlands, Belgium, Denmark, Spain, Norway, Sweden and the Czech Republic
- Free TMC service is not available in all the countries. For the reception of encrypted TMC services, BMW offers a country-specific "BMW ConnectedDrive" contract - Please contact your local BMW car dealership.
- List of BMW Service partners
- Further POI added to the database with 32 categories
- Updated European road network
- Falk travel guide for Western Europe (excluding Scandinavia).

Straßen / Roads:

Diese Karte beinhaltet tausende Straßenkilometer.

This map covers thousands of kilometres of road.

POI:

Tausende POI (Points of Interest) sind auf dieser Karte enthalten.

Thousands of POIs (Points of Interest) are included in this map.
